

## IACLE Korea reports a busy agenda of activities

Twenty-five students from [Kookje University](#) attended an Industry Seminar conducted by Johnson and Johnson Vision Korea (11 June). The seminar was facilitated by **Professor Kyounghee Park**, IACLE Korea National Coordinator. **Eunice Young-Eun Chang** (pictured right), Education Director from Johnson & Johnson Vision, gave a presentation on 'Toric soft contact lenses: fitting and sharing of best practice'. Feedback from students was that the seminar was informative and led to a better understanding of the topic.

In other news from Korea, Kyounghee reports that translation of the [New IACLE Contact Lens Course](#) is under way. FIACLE **Jangwon Byun** and IACLE member **Jeonglim Lee** have joined the team translating the course and expect to complete their work by the end of the year.

Kyounghee also met with the O-lens company (pictured) last month and discussed IACLE participation. O-lens has 238 branches in Korea and is forming an education team.

## ...and Indonesia hosts WebEx lecture

IACLE Regional Coordinator, **Dr Cheni Lee**, introduced a new teaching methodology using the WebEx platform at the Academy of Optometry in Surabaya, Indonesia. This lecture (24 June) was attended by 20 optometry students from the academy's second campus, located 665 km away from the main campus.

Cheni lectured on the topic 'Preliminary examination of a contact lens patient'.

**Nova Joko**, Education Coordinator at the school (pictured), welcomed this new teaching method. 'We thank you for this support. There are certain topics that are difficult for us to teach. Now, with this long-distance teaching methodology, the sky is not the limit!'

## FIACLEs join major optometry meeting in Taiwan

Four FIACLEs **Yana Chen, Claire Chang, Shu Yuan Lin** and **John Hsiao** attended the Taiwan Optometry Conference hosted on 3 July by the Department of Optometry, [Chung Shan Medical University](#) and Taichung Optometrists Association in Taiwan. About 500 Taiwan optometrists attended this event. Dr John Hsiao (pictured top right, center) gave a presentation on 'RGP contact lens fitting'.

## Introducing IACLE at China Optometry Education Development Program

China National Coordinator **Professor Wang Haiying** (pictured) delivered a lecture on 'Multifocal contact lens fitting' and introduced IACLE programs during the 2<sup>nd</sup> Educators Training of the China Optometry Education Development Program (CODE). This event was conducted at [Tianjin Vocational Institute](#) on 6 July and attracted 43 educators and trainers from colleges and the optical industry.

IACLE China National Administrator **Wang Cuiying** promoted IACLE by giving an online demonstration of the [IACLE website](#), explained the benefits of becoming a member and also the membership application process, and discussed how to set up an [IACLE Resource Centre](#). IACLE China received positive feedback from educators who will become IACLE members.
