

## IACLE aims high in Ecuador with course based on New ICLC

IACLE members from the Optometry Program at [Universidad Metropolitana](#) (UMET) in Quito, Ecuador, led by Alejandro Lalama and with the support of Optica Los Andes, have organized a contact lens course for a group of 50 students. Alcon is also contributing to this activity. The course offers UMET's Certification on Clinical Management of Contact Lenses.

The design of this course is based on the [New IACLE Contact Lens Course](#) (New ICLC) and has 120 hours of education divided into three modules: Soft Contact Lens Fitting, GP Contact Lens Fitting and New Diagnostic Tools and Specialty Contact Lens.

**Guillermo Carrillo**, IACLE Americas Regional Coordinator, was invited to lecture on the GP lens module last month (13-14 June). Pictured (above right) is Guillermo with the group and (above left) conducting a practical workshop.

## Argentinean members work hard to achieve successful Fellowship Exam

Argentinean IACLE members are meeting to prepare for the [IACLE Fellowship Exam](#) to be held on 4 November 2017. With 'Mates and Medias Lunas' (sweet croissants), FIACLE **Sabrina Lara** and IACLE members **Eduardo Salischiker** and **Eduardo Elvira** are meeting frequently to review the New ICLC and follow [Distance Learning Program](#) assignments in preparation for the next Fellowship Exam for achieving FIACLE status.

Sabrina said: 'We enjoy meeting, exchanging experiences and preparing our exam, and are enjoying this time. It's a very important achievement to become a Fellow of IACLE and it's a commitment for us.' Pictured (left) is Sabrina, with both Eduardos.
