

IACLE meeting - NCC 2018

Sunday, 11 march 2018

General information:

Wim Borst and Henri Eek (both IACLE fellows) will organise an IACLE meeting during the NCC-2018 conference in Veldhoven (The Netherlands) which will be held on Sunday 11 and Monday 12 march 2018.

The theme of the meeting will be 'Compliance and Education', an important issue all over the world at the moment. It's also an important 'general theme' at the NCC and will be discussed during several conference sessions.

The meeting will be held on Sunday during the lunch-break from 12.30-13.30 in the 'Baroniezaal'.

The schedule for the meeting:

- General Introduction IACLE (Byki Huntjens) - 10 minutes
- Presentation about compliance (Wim Borst) - 15 minutes
- Presenting discussion topics (Henri Eek) - 5 minutes
- Discussion - 20 minutes
- Conclusions and follow-up - 10 minutes

Discussion topics:

1. Educators and contact lens practitioners do not always realize how important good education on compliance is for their students and their future clients.
2. Contact lens educators can provide a useful contribution to the awareness about the importance of good compliance to our students and their future clients.
3. An instruction manual with information and education on compliance which includes also some 'dirty pictures' (like the tobacco industry) could be helpful to improve the awareness about compliance for educators, students and contact lens wearers.

Educators and IACLE members from all over the world are invited to attend the meeting and to join the discussion.

We hope to see you all in Veldhoven!

Kind regards,

Wim Borst and Henri Eek
