

IACLE duo join presenters at Indonesian meetings

Educational events in Jakarta and Lampung provided opportunities to engage with optometrists and ophthalmologists from across Indonesia, as Dr Cheni Lee reports

IACLE Asia Pacific Regional Coordinator **Dr Cheni Lee** (above) was invited to present on ‘Correction of astigmatism with toric lenses’ at the 4th [Jakarta Eye Center](#) International Meeting (6 February). Cheni also conducted a workshop on the fitting assessment of soft torics. More than 100 optometrists attended the session and provided good feedback on how to determine the rotation of soft torics using the slit lamp.

FIACLE **Tri Rahayu** (left) from the Indonesian Contactology Society led a workshop on ‘How to choose the right contact lenses’ at the Jakarta meeting.

Tri also presented on ‘Easy-step fitting and prescribing of spherical soft contact lenses’ at another event, the 14th Sumatra Ophthalmology Meeting in Lampung on the Indonesian island (19 February). Twenty ophthalmologists attended the session.
