

**IACLE China runs online training on how to use IACLE resources**

China National Coordinator **Professor Wang Haiying** gave an online lecture on how to use IACLE educational resource during teaching (16 April). A total of 63 delegates attended. Institutes in China represented included: Guiyang Medical College, Shijiazhuang Medical College, Changsha Health, Sanquan College of Xinxiang Medical University, Huaxi Ophthalmology of Sichuan University, Beijing Tongren Optometry Center and Tianjin Vocational Institute. Industry representatives and members attended from Bausch + Lomb and Johnson & Johnson Vision.

Haiying introduced the login process to all educational programs for members and teachers, and showed how to use the resources step by step. In addition, she gave details of the [IACLE Contact Lens Course](#) (ICLC) and [IACLE Case Report Series](#). Haiying encouraged members to use IACLE resources to improve their standard of contact lens teaching.

**FIACLEs step up to deliver weekly online lectures in India**

A series of online lectures was conducted in India by FIACLEs in April. These lectures, held every Friday, are facilitated by Director of Global Education **Lakshmi Shinde** and Director of Educational Programs **Nilesh Thite**.

Among April's events, three FIACLEs – IACLE Asia Pacific Regional President **Dr Rajeswari Mahadevan**, **Shraddha Kadam** and **Premjit Bhakat** led a discussion on

'Online contact lens education'. A total of 39 attendees from 28 institution joined the lecture and participated in this interactive session (17 April).

## Cheni convenes small group discussion with Indonesian educators

The COVID-19 outbreak and lockdown situation in Indonesia has driven many educators in the universities to find new ways to teach. **Dr Cheni Lee** (below center), IACLE's Asia Pacific Regional Coordinator, conducted a small group to discuss online IACLE Resources and how to use them with four educators via Zoom.
