

## Germany takes the lead with webinar collaboration

IACLE members and Fellows are organizing their own online events and collaborating with other institutions in their countries and regions, including webinars in Germany during May

Due to the COVID-19 shutdown of optometry schools in Germany, four IACLE institutions organized a series of contact lens webinars in the German language. Each of the webinars offered by one of the schools could be attended by students from all schools. The webinars were also live streamed on [IACLE Facebook](#). Recorded versions are available on [IACLETOP](#).

Presenter and Institution (clockwise from top left)	Theme
<b>Dr Stefan Bandlitz</b> <i>Höhere Fachschule für Augenoptik Köln</i> Cologne School of Optometry	<b>Tränenfilmbeurteilung</b> (Contact Lenses and Tear Film Assessment)
