

IACLE Asia Pacific Activity Summary Report – August 2020

IACLE Korea

Professor Kyoung Hee Park visited [Kyung Dong University](#) on 2 August to prepare both students and IACLE member **Professor Daejong Kim** for the IACLE Student Trial Exam. This institution will be conducting the STE on IACLETOP. 20 students attended the contact lens update session.

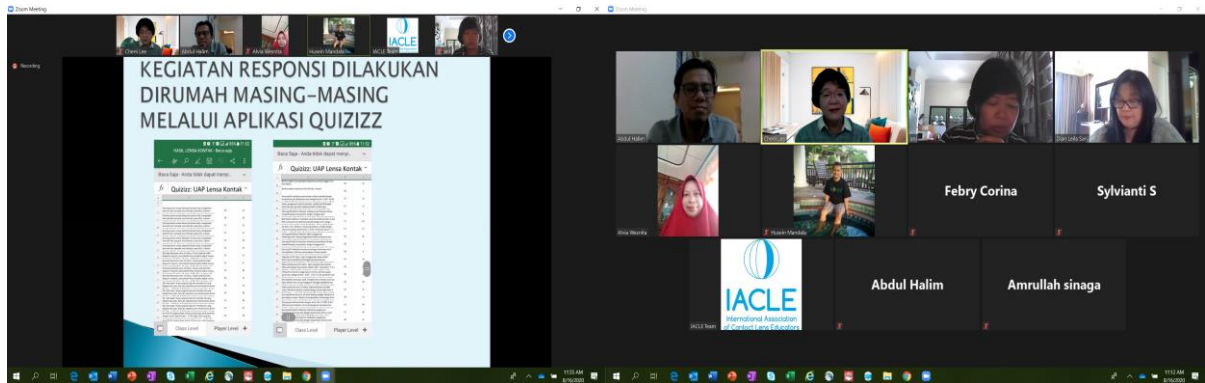

Since most optometry schools in Korea do not have clinics, students cannot see patients. During the visit **Professor Kyoung Hee Park** encouraged the use of the IACLE Case Reports for teaching since this indirect experience through various case reports will be useful and benefit the students in this COVID situation.

IACLE Indonesia

FIACLE **Abdul Halim** shared his experience on how to conduct student assessment before and after COVID on the 16 August. He introduced a local online assessment program similar to Microsoft and Google formats that can be used to score students. IACLE Regional Asia Pacific Coordinator **Dr Cheni Lee** facilitated the discussion session. Twelve IACLE members from the seven optometry schools attended the session.

Feedback from a student: "Thank you Abdul Halim for sharing and IACLE for facilitating this session, we learn new things every time we meet. Great session!"

IACLE Member Update from the Philippines

FIACLE **Fakhruddin Barodawala** was invited to present on 'Contact lens aftercare' on 27 August by FIACLE **Dr Maria Concepcion Anda** who is the program coordinator from the Faculty of Optometry, [Centro Escolar University](#), Philippines. 145 interns from the graduating class attended the session. This collaboration of sharing resources online helps students to be better prepared in their clinics.
