## India Education Team hosts Journal Club

The Education Team in India have begun a new initiative to explore recently published articles. **Preetha Ramprasad** from [Vasan Institute of Ophthalmology and Research](#) in India discussed 'Subjective and objective evaluation of the effect of blink type on TBUT and its estimation'. **Dr Mohammad Noor** from [Sankara Eye Hospital](#) in India presented 'Higher order aberrations and axial elongation in combined 0.01% atropine with orthokeratology for myopia control' (18 December). 'Wonderful, interesting and informative presentations by both Dr Noor and Preetha. Superb articles selected and a great job!', was some of the feedback from an IACLE member.

## Korea Ophthalmic and Optics Society Virtual Conference

Over 100 IACLE members and students attended a virtual conference hosted by the [Korean Ophthalmic and Optics Society](#) (5 December 2020). Executive Manager of Educational Programs **Nilesh Thite** was invited as a keynote speaker and conducted a lecture on presbyopia and contact lenses.

## Student Trial Exams conducted in Jakarta

IACLE member **Sylvianti Simanjuntak** from the Academy of Optometry Leprindo in Jakarta conducted the Student Trial Exam on 28 October 2020. Certificates were presented to all who successfully passed the exam (pictured below). **Dian Leila Sari**, Director of the Optometry School commented: 'Thank you Sylvianti and Dr Cheni Lee for conducting and facilitating this STE exam. It's a privilege that we are given this opportunity to gauge our students' contact lens knowledge.'
