## Alcon hosts industry webinar for Asia Pacific

**Rupam Sinha**, Professional Services Manager at [Alcon](#) in India, conducted an industry webinar (24 April). Rupam gave an insightful talk about the company, silicone hydrogels, toric contact lenses and gave an update on Alcon's new contact lenses. The session brought around 40 students and optometrists together.

'Contact lenses moving forward' is the theme for this month's webinars. On **Wednesday 5 May**, FIAACLE **Isha Dave** from the [Lotus College of Optometry](#) in Mumbai, India delivered a lecture on the topic, where 43 participants from across the Asia Pacific region attended. 'Thank you for sharing your experiences and thoughts behind your actions as a practitioner. A very interesting and useful session for many of us', was some feedback from an IACLE member.

## CooperVision conducts online industry session in South Korea

**Minji Kang** Director at [CooperVision](#) delivered an industry webinar on 'Silicone hydrogels and soft toric contact lenses' for around 100 students from [Kookje University](#) in Pyeongtaek, South Korea, [Dongnam Health University](#) in Suwon, South Korea, and [Kyungdong University](#) in Wonju, South Korea. **Professor Kyoungee Park** expressed her gratitude to CooperVision for conducting the online session.
