

Did you know? IACLE members have access to their own dedicated Student Area within [IACLETOP](#). The Area is designed for educators to offer their students a unique teaching space for learning and assessment opportunities. The Student Area has the tools to allow educators to produce individual teaching content and assessments, while streamlining and integrating IACLE resources available in this area, into their teaching. Student data is stored safely, and for your use only.

Programs and resources available for members to use with their students:

- [Student Trial Exam](#) – ran through IACLETOP, the STE is available in two formats (50 or 100 multiple choice questions) and can be accessed as frequently as desired. Students can resit the STE as required, allowing progression to be monitored and compared.
- [IACLE Case Reports](#) – available in two formats, as self-directed learning or to use as a flipped class environment. Each Case Report can be delivered as a tutorial using the Nearpod software.
- [IACLE Global Webinars](#) – offered in English, Chinese, Korean, Spanish and Bahasa.

Benefits of the Student Area

- Educators are able to design their own course using the state-of-the-art Canvas platform
- The individual spaces are only for your students to access the course you create
- Integrate IACLE resources or create your own
- Explore the wide range of Canvas tools to create a customized program
- Test and examine your students with the in-built assessment system that automatically generates grades
- Create discussion boards for ongoing communication with students about the course
- Calendar system to help students track deadlines and manage their time effectively
- Deliver live, online presentations
- Create workspaces for collaborative student learning
- Distribute announcements to keep students updated and informed

Educator Testimonials

'The Student Area in IACLETOP is an incredible platform to deliver my contact lens lectures, especially during the pandemic when teaching is totally in virtual mode. It's a multipurpose system that serves the function of sharing my lecture notes, taking assignments and making learning easy. It is one of the most useful resources of IACLE as far as online teaching is concerned. Thanks team IACLE. I look forward to digging more into this excellent resource.'

FIACLE Runa Mazumder, Vidyasagar College of Optometry & Vision Sciences, Kolkata, India

'A very interesting and valuable experience. Students are also finding it interesting. It is the best way to make contact lens lectures more interactive, especially in this online scenario.'

Mumtaz Qazi, Lotus College of Optometry, Mumbai, India

'We have found IACLETOP to be a very effective and easy to use tool, for both educating students and conducting the Student Trial Exam. From the students' perspective, sitting the STE was a great experience for them to explore various features. The Student Area provided access to various Case Reports, Flashcards, videos, presentations and much more. Finally, we would like to thank IACLE for creating IACLETOP and for making life easy for contact lens educators.'

FIACLE Ankit Varshney

Student Testimonials

'The most beneficial part of the Student Area is being able to access all recorded video lectures anywhere at any time, and through your mobile phone. You can also write assignments directly into the app. I was worried about my studies during the COVID-19 pandemic as there are so many distractions in online sessions, but IACLETOP has provided better experiences for online learning.'

Suraj Dalal, 3rd Year Student at Hari Jyot College of Optometry, Navsari, India

'The Student Area is easy to access and find materials, i.e., video presentations and assignments. Through assignments and quizzes, we get to understand the types of questions that can be asked, with lecture links provided on the same page. Submission details are clear to understand and the option to have calendar notifications is useful as it reminds us about an event before it takes place.'

Dharav Desai, 3rd Year Student at Hari Jyot College of Optometry, Navsari, India
