

Multifocal soft contact lens fitting session in China

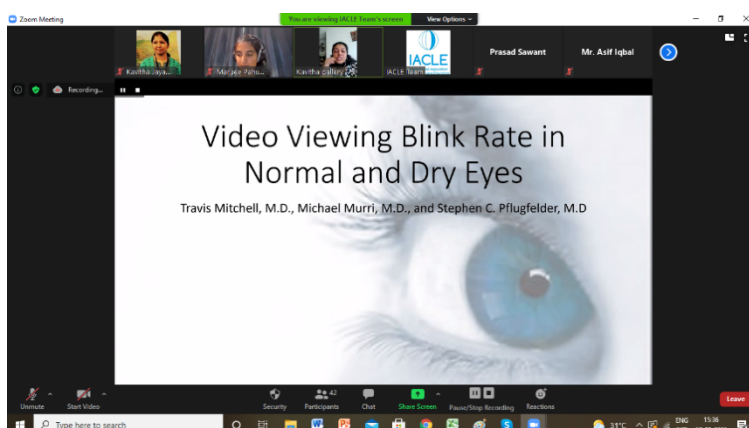

China National Coordinator **Professor Wang Haiying** conducted an online lecture on multifocal soft lens fitting (14 September). She discussed the status of myopia development, demonstrated different types of myopia control methods and the application of multifocal soft contact lenses. Wang Haiying also

spoke on the need and seriousness of myopia prevention and control in China. Educators in vocational colleges feel the urgent need to introduce the fitting of multifocal soft contact lens into their own curriculum.

In addition to this, Wang Haiying introduced [IACLETOP](#) and the [Regional Hubs](#). **Professor Qu Xiaomei** also encouraged members to visit the [Member Area](#) and utilize all IACLE's resources. A total of 37 participants attended the session. [Catch up on the webinar here](#).

Journal Club in India

In September's Journal Club, **Maruee Pahuja** presented the article 'Diagnostic patterns in keratoconus' and **Kavitha Pallery** discussed 'Video viewing blink rate in normal and dry eyes' (17 September). The IACLE Education Team in India host Journal Club once a month to discuss the most relevant and interesting articles that have recently been published. A total of 43 members and their students attended the session.
