

January - February 2022

Korea lecture at J&J Education Centre

Korea National Coordinator **Professor Kyounghee Park** hosted a lecture on 'Soft contact lens materials and soft toric contact lens designs' to four IACLE members and 10 students from <u>Konyang University</u> in Nonsan, South Korea (20 January). The event was conducted at the ACUVUE Education Centre. After completing a two-week intensive program at the centre, the students are able to practice at optical outlets and clinics.

FIACLE speaks at Korean institution

FIACLE **Mi Sun Hwang** from <u>Johnson & Johnson</u> delivered an online lecture on 'How to fit multifocal contact lenses' to Korean professors (25 February). After the lecture, an interactive discussion took place where professors shared their experiences on how to conduct practical sessions for both non-presbyopia and multifocal contact lens fitting. A total of 25 Educator Members participated,

including Honorary Member **Professor Douk Hoon Kim**, Lifetime FIACLE **Professor Ki-Choong Mah** and industry members from <u>Johnson & Johnson</u>, <u>CooperVision</u>, and <u>Bausch + Lomb</u>.

February Journal Club in India

Saicharan Labishetty Assistant Professor at <u>Galgotias University</u> in Uttar Pradesh, India, and **Keyur Sharma** from <u>Shree Bharatimaiya College of Optometry</u> in Surat, India, hosted the February Journal Club. Saicharan discussed the paper 'Orthokeratology lenses versus administration of 0.01% atropine eye drops' and Keyur presented 'Review of 20 years of soft contact lens wearer ocular physiology data'. A total of 55 members and students attended the session.
