

June 2022

IACLE LA Office on the radio – IACLE in the World

Every week, Americas Regional Coordinator **Guillermo Carrillo** interviews IACLE members from across the Latin America region on different contact lens topics, thanks to the sponsorship of www.franjavisualradio.com.

Members from different parts of the region participate and share their experiences on the education markets. This month, we heard from four speakers hosting sessions on their areas of expertise.

The image shows a webinar slide with a blue and purple gradient background. On the left is the IACLE fellow logo. The main title is 'SPANISH IACLE JOURNAL CLUB'. The topic is 'Central-to-peripheral corneal edema during wear of embedded-component contact lenses'. The speakers listed are Young Hyun Kim, Meng C. Lin, and Clayton J. Radke. The journal reference is 'CONTACT LENS AND ANTERIOR EYE 45 (2022)'. The date is 'ORLANDO NEIRA, 2022 - 05 - 04'. In the top right corner, there is a small video inset showing a grid of participants, with one person's name 'COL - Orlando Neira' visible at the bottom.

In the past month, FIACLE **Orlando Neira** had the opportunity to share one of the papers from the latest Research Update. **Karla Herrera** spoke on 'Contact lenses and its assessment options for athletes'. FIACLE **Edison Gamarra** discussed the criteria for GP fittings. FIACLE **Rolando Rojas** reviewed a paper related to mask usage and dry eye. This month, we reached 50 IACLE members and almost 200 contact lens practitioners and students.
