## IACLE on the radio

Every week, Americas Regional Coordinator **Guillermo Carrillo**, hosts a radio program called 'IACLE in the World' and interviews IACLE members from across the Latin America region on different contact lens topics, thanks to the sponsorship of [www.franjavisualradio.com](http://www.franjavisualradio.com).

Members from different parts of the region participate and share their experiences on the education markets. This month, we heard from four speakers hosting sessions on their areas of expertise.

Within the last month, IACLE's Spanish-speaking webinars saw live attendance of almost 70 participants, including IACLE members and eye care practitioners. **Juan Pablo Luna** recommended in-office tools for correcting astigmatism with contact lenses. **Jeannine Hernandez** spoke on 'Mask-associated dry eye', where she explored patient complaints and what practitioners need to put in place to help their patients. **Ruben Velazquez** discussed the importance of contact lens practice for visual disabilities and explained how low vision patients could have visual benefits from wearing contact lenses. **Juan Camilo Cuesta's** talk was on 'Measurement scales: tools to advise, describe, and evolve clinical findings'. He briefly summarized grading scales and how to use them to improve contact lens practice.

This month, the IACLE Americas Office reached 185 IACLE members, students and eye care practitioners.
